FOUNDATIONS OF MONEY

ANSWERING THE “WHY, HOW, AND WHAT” OF MONEY

Take a minute or two and examine the strength of your financial foundation by answering these questions: Why should you care about managing money? How can you make the best use of your money? And what are the options you have for how you choose to spend, save, and manage it?

The Knowl will help you reflect on your answers in the *Foundations of Money* course and then take action by establishing short- and long-term financial goals. Plus, you'll create a spending plan to help you achieve those goals and identify which financial institutions and products will support your financial journey.

UPON COMPLETING THE *FOUNDATIONS OF MONEY* COURSE, YOU WILL BE ABLE TO:

- Recognize the importance of understanding, managing and saving money in reaching financial goals.
- Compare features and costs of different banks and banking products.
- Identify the components of and create a spending plan.
- Compare the costs and benefits of different payment types.
- Identify short-term and long-term financial goal(s).

Register today for Financial Avenue and complete the *Foundations of Money* course. FinancialAvenue.org
